Dear Robert

REGULATION 14A OF THE ELECTRICITY WORKS (ENVIRONMENTAL IMPACT ASSESSMENT) (ENGLAND AND WALES) REGULATIONS 2000 (AS AMENDED). LLANBADARN FYNYYDD WIND FARM, VATTENFALL. SUPPLEMENTARY ENVIRONMENTAL INFORMATION. ERRATA

Further to Vattenfall's recent submission of Supplementary Environmental Information (February 2013), it has come to my attention that the noise assessment relating to the Lower Foel residential property presented the incorrect derived ETSU-R-97 day time and night time noise limits. The limits included within the SEI were based upon the complete raw noise and wind data set and not the filtered dataset used for all other locations. I can confirm that the data for all other properties featured within the SEI has been checked and is correct.

Please find attached the errata which includes the corrected data.

Yours sincerely

DAVID KENYON
