

MR JOHN JONES
POWYS WINDFARM SUPPORTER
SUP/021/OSOC

Powys Windfarm Supporters.

'Powys Windfarm Supporters is a voice for the people of Mid Wales who support the development of wind farms in the area and in particular the five applications in question. We believe these developments will bring much needed economic and environmental investment to Mid Wales and its communities whilst making a significant contribution to both local and national policy objectives.'

'Powys needs investment. Powys needs jobs. The UK & Welsh Governments are committed to ensuring 15% of our energy is produced by renewables by the year 2020. So why should the people of mid Wales miss out on this exciting investment opportunity from this growing sector?'
