Dear Mr Banks

We are writing to object to the SEI which has now been produced for the Llandinam Windfarm Repowering scheme. We feel that there are still important issues which have not been acceptably resolved, such as the loss of peat from the site and also the revised transport route which, with the major roadworks required at the bridge crossing the road at Crossgates, would cause an unacceptable level of disruption for normal road-users.

Yours sincerely

Miss M L Flanders and Mr B S Crawford
