To: bankssolutionsuk@gmail.com

To whom it concerns,

I would like the effect of the mid Wales connection as transmission lines.(a) to the hub(b) the hub itself(c) the transmission lines from the hub to the grid, to be included in the statement of matters to be considered at the inquiry. so i can truly explain what the effects will be on those living near by and also beyond,not only now but for many years in the future.

Yours sincerely

Mr Stephen Long
