

Sensitivity of receptors at the various viewpoints based on the “*Guidelines for Landscape and Visual Impact Assessment*” 2<sup>nd</sup> Edition, published by The Landscape Institute and Institute for Environmental Management & Assessment (2002) paragraphs 7.31 and 7.32 (the GLVIA guidelines).

**High**            *Users of all outdoor recreational facilities including public rights of way, whose attention or interest may be focused on the landscape; communities where the development results in changes in the landscape setting or valued views enjoyed by the community; and occupiers of residential properties with views affected by the development.*

**Medium**        *People engaged in outdoor sport or recreation (other than the appreciation of the landscape, in landscapes of acknowledged importance or values); and people travelling through or past the affected landscape in cars, on trains or other transport routes.*

**Low**             *People at their place of work or engaged in similar activities, whose attention may be focused on their work or activity.*
